7 FEDERAL TAX WITHHOLDING - ELECTION AND INFORMATION

FEDERAL WITHHOLDING ELECTION NOTICE. Distributions from your non-Roth IRA are subject to federal and, where applicable, state income tax withholding unless you elect not to have withholding apply below (if you are a U.S. Citizen or other U.S. Person). For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% below. Generally, you cannot choose less than 10% for payments to be delivered outside the United States and its possessions. If this election is not completed, we may withhold federal income tax at the rate of 10%.

If you made nondeductible contributions to your IRA, this may result in excess withholding from your distributions. If you elect not to have withholdings apply to your distributions or if you do not have enough federal income tax withheld from your distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

Please review the Federal Tax Withholding Additional Information and Information Sheet that incorporates IRS Form W-4R, which can be found at the end of this Form.

Please select only one option below.

- Please withhold taxes from my distribution at the default rate of 10%
- Please withhold taxes from my distribution at a rate of: _____ (Enter rate as a whole number between 0%-100%, no decimals)

*Complete this line if you would like a rate of withholding that is different than the default withholding rate. Please review the Federal Tax Withholding Additional Information and Information Sheet for more information.

8 STATE WITHHOLDING ELECTION

STATE INCOME TAX. Requirements vary by state. See State Tax Withholding Information at the end of this Form.

State of Residence: _____

If you do not provide state above we will use the state on your Account's record at the time this is processed.

Please select only one option below.

- Do NOT** withhold State Income Tax
- Withhold** State Income Tax*
- at a rate of _____% (*percentage in whole numbers*)
- in the amount of \$ _____

State income tax withholding from your distribution may be required. In some cases, you may elect not to have withholding apply, or you may elect to increase the rate of withholding. In other cases, state income tax withholding may not be available. Refer to the State Tax Withholding Information sheet for specific information concerning your state's withholding rates. While we make every effort to obtain information about state tax laws from sources believed to be reliable, we cannot guarantee the accuracy or timeliness of state tax withholding information because state tax laws are subject to constant change and interpretation. We recommend that you contact your tax advisor regarding your tax withholding elections and to answer any questions that you may have.

***Note, if you do not make an election, we will apply withholding (if required) at the minimum rate based on the laws for your state of residency as determined by the legal address of record on your account.**

(Note: For Income Distribution Schedules from section 3D, withholding elections must be a percentage, not a dollar amount.)

FEDERAL TAX WITHHOLDING
ADDITIONAL INFORMATION

IRS regulations require us to withhold federal income tax at the rate of 10% from your IRA distribution(s) unless you elect not to have withholding apply by indicating this on your distribution request. This election will remain in effect on periodic distributions taken from your IRA until revoked by you. You can revoke this election at any time by sending a written request to the following address: ETC Brokerage Services, LLC, 1 Equity Way, Westlake, Ohio 44145. Withholding may apply to the gross amount of each distribution, even though you may have made nondeductible contributions.

If you elect to have withholding apply when you request a distribution, federal income tax will be withheld from your IRA distribution(s) (excluding Roth IRA distributions) at a rate of 10% (unless you have elected a different percentage withheld between 1% and 100%, in which case federal income tax will be withheld at the rate you have chosen). Withholding will also apply if you make no withholding election. Even if you choose to have federal income tax withheld, you are still responsible for the full payment of federal income tax, any state or local taxes, and any penalties that may apply to your distribution(s). Federal income tax will not be withheld from distributions from a Roth IRA unless you elect to have such tax withheld. Whether or not you elect to have withholding apply, you may be responsible for payment of estimated taxes. You may also incur penalties under the IRS estimated tax rules if your estimated tax payments are not sufficient.

If you are a nonresident alien, you must submit IRS Form W-8BEN, Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding, with your distribution request to claim tax treaty benefits, if applicable. To obtain Form W-8BEN, consult your tax advisor or go to the IRS Web site at <http://www.irs.gov>. Note: Similar tax withholding rules may apply to other types of retirement accounts. Contact your investment professional or tax advisor for more details.

2024 MARGINAL RATE TABLES

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See below for more information on how to use this table.

General Instructions

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2024, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

General Instructions (continued)

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can't choose withholding at a rate of less than 20% (including "-0-"). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don't give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are not eligible rollover distributions for purposes of these withholding rules:

- Qualifying "hardship" distributions;
- Distributions required by federal law, such as required minimum distributions;
- Generally, distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding above*.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter "-0-" on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions**Line 1b**

For an estate, enter the estate's employer identification number (EIN) in the area reserved for "Social security number."

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits. is

Example 1. You expect your total income to be \$62,000 without the payment. Step 1: Because your total income without the payment, \$62,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$82,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2. is

Example 2. You expect your total income to be \$43,700 without the payment. Step 1: Because your total income without the payment, \$43,700, is greater than \$26,200 but less than \$61,750, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$63,700, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. The two rates differ. \$18,050 of the \$20,000 payment is in the lower bracket (\$61,750 less your total income of \$43,700 without the payment), and \$1,950 is in the higher bracket (\$20,000 less the \$18,050 that is in the lower bracket). Multiply \$18,050 by 12% to get \$2,166. Multiply \$1,950 by 22% to get \$429. The sum of these two amounts is \$2,595. This is the estimated tax on your payment. This amount corresponds to 13% of the \$20,000 payment (\$2,595 divided by \$20,000). Enter "13" on line 2.
